Harshit Jadli

Phone: (+91)9789455454   **LinkedIn:** LinkedIn/harshit
Email: harshitjadli11@gmail.com   **GitHub:** github.com/harshit

Education

Vellore Institute of technology
Bachelor of Computer Science with specialization in Internet of things (3rd Year)
GPA: **8.96/10**   Jul, 2019 – Apr, 2023
St. Joseph's School Shaktinagar
Class 12th percentage: **92.3**
Class 10th cgpa: **10**

Programming Skills:

- **Languages:** C, C++, JavaScript, SQL, Java
- **Technologies:** React, Node, Heroku
- **Toolkits:** Visual Studio Code, Postman, Git GitHub

Projects

- *Android Malware detection using ANN model*
  - Made an APK file scanner for malware application
  - Made an ANN model using custom dataset.
- *Workout monitoring application*
  - Made a push up, pull up and other exercises counter
  - Produced using CNN deep learning model
  - Front end using HTML, CSS libraries
  - Backend using Django
- *Google Clone:*
  - Made a full stack clone of google using React, NodeJs
  - Hosted in FireBase
  - Made a custom search engine to produce result and display results like google provides
- *Amazon Clone:*
  - Made a full stack amazon clone using React,NodeJs
  - Hosted using FireBase
  - Capable of providing all functionalities of amazon
- *Chat Room:*
  - Produced a chat room using Node JS, JavaScript
  - Consists of multiple rooms each requiring authorization
  - Hosted using Heroku
- *Text Summarizer*
  - Produced a Text summarizer using Python
  - Made using sequence2sequence model
- *Discord Chat Bot*
  - Produced a discord Bot using Node Js
  - Capable of replying to multiple commands, setting timer

Coursework

- *Database Management System*
- *Front end based work (react, nodeJs)*
- *Design and analysis of Algorithm*
- *Natural Language Processing*
- ***Software Engineering***
